STAY or get AWAY...

presents: **John's Story**

a theatre performance of 30 minutes >> afterwards discussion

In this performance the young people found a way to express their experiences of violence, exploring it from different perspectives of their own countries, cities, schools and family homes.

To achieve this, pupils from the project »Stay or get away« started to exchange their experiences among one another. The next, very important step was to interview people who directly were involved in acts of violence, as victims, and those who were aggressors. Based on the collected material the play »John's story« was developed by representatives of all participating groups.

The play is going to be shown in all places from where the young people are coming from.

The idea of the project has been created by Interkunst e. V., Berlin. This association is also responsible for organisation and artistic support.

Cooperation partners are the European Union, programme Comenius, die Landeszentrale für politische Bildung Sachsen-Anhalt, der Präventionsrat Sachsen-Anhalt.

Participating Schools are: Trotha-Gymnasium, Halle / Sekundarschule Friedrichstadt, Wittenberg / Munkebjergskolen, Odense / Zespół Szkół Budowlanych, Braniewo
